Intel(R) Threading Building Blocks 4.0 Update 4 for Windows*

Extract the product package to folder:

C:\Program Files (x86)\Intel\Download\w_tbb_4.0.4.325

☑ Remove temporarily extracted files after installation.   Browse...

Extract   Cancel

I need to click "Extract" button to install the software. This window is activated. But it does not response the autoIt send("{TAB}") or controlClick functions.
